COMMENTS ON EXAMINER'S REASONS FOR ALLOWANCE

Applicant agrees that all claims are allowable. The statement of Reasons for Allowance states that “[t]he package structure is utilized as a method of executing applications, and are loaded via a client’s web browser.” See Notice of Allowance mailed September 15, 2008 at page 18. For purposes of clarity, however, applicant notes that independent claims 33, 60, and 68, recite only a “browser,” which can be a “web browser.” In addition, independent claims 46 and 96 do not recite a “browser.”

Further, applicant agrees that the limitations recited in the Examiner's Reasons for Allowance are not taught or suggested by the art of record, and that the relevant independent claims are distinguished from the cited prior art for at least the reasons stated in the Reasons for Allowance, which are sufficient for allowance of those claims. Applicant does not concede that the stated reasons are the only grounds for patentability of the allowed claims, that the limitations excluded from the Reasons for Allowance are taught or suggested by the art of record, or that all of the limitations are necessary for patentability of the allowed claims or other claims directed to the disclosed subject matter.
